## FACULTY EMERITI ASSOCIATION LECTURE SERIES

**THURSDAY, JUNE 6, 2024 2PM 80TH ANNIVERSARY OF D-DAY, PRESENTED BY DAVID LUSCH. SPONSORED BY MSU FACULTY EMERITI ASSOCIATION**

On Thursday, June 6, 2024 (the 80th Anniversary of D-Day), David Lusch will present a one-hour lecture entitled Operation Neptune, 5 – 6 June 1944: Sneaking more than 2,700 ships past the Germans to the beaches of Normandy. The lecture, sponsored by the MSU Faculty Emeriti Association, will take place in the Community Room in the MSUFCU Branch on Mt. Hope at Farm Lane. The entrance to the Community Room is on the east side of the building. Doors will open at 1:30 pm. The lecture will run from 2:00 - 3:00 pm with time for questions/discussion afterwards.

Synopsis of the lecture:

Operation Neptune was the amphibious assault phase of Operation Overlord, the Allied invasion of Normandy, France. A brief overview of Overlord will be presented to set the context, but the main focus of this lecture will be several Operation Neptune missions that were conducted on 5 – 6 June 1944. The Operation Fortitude – South deceptions involving the fictitious First United States Army Group will be summarized, as well.

The cross-channel fleet contained over 2,700 vessels. Just before dawn on 5 June 1944, most of these vessels sailed from their various home ports heading to the congested assembly area SE of the Isle of Wight in the English Channel. Based on the book and movie, *The Longest Day*, a widely held belief is that the Germans relied mostly on visual observations to detect any invasion fleet. In reality, sophisticated radar was an integral part of Hitler's Atlantic Wall defenses. There were more than 80 radar sites along the Normandy coastline. Once the Operation Neptune flotilla embarked from the assembly area, they were all within range of scores of these German radar installations!

This lecture will explore three reasons why the Germans never detected the Allied attack fleet on their radar units: (1) British fighter-bomber destruction of numerous German radar stations during the 30 days leading up to D-Day; (2) airborne and shipborne electronic jamming of German radar sites during the invasion; and (3) a pair of airborne and seaborne ghost fleet spoofing operations east of the D-Day beaches.

From boyhood, Dave has always been interested in WWII. In 2016, he toured the D-Day battlefields in Normandy for a week, which sparked his interest to dig into the details of Operation Overlord. Dr. Lusch previously presented two other D-Day lectures sponsored by the MSURA, Military History Study Group: *Physical Geography Factors that Influenced the D-Day Invasion of Normandy* in 2019 and *Operation Neptune - Radio Navigation and Minesweeping Led the Way to Normandy* in 2021.

The Military History Special Interest Group is inviting you to a special event. Michael Unsworth, a retired MSU history librarian. He'll present "Floating Vengeance: Japan's World War II Balloon Attack on Michigan." He'll talk about how Japan, over about a five-month period, sent 9,200 balloons filled with hydrogen gas across the Pacific. The balloons were intended to lower morale in the U.S. and Canada. Only 285 balloons were discovered. Unsworth will talk about the two balloons that made their way to Michigan, the farthest east any were found. Come at 1:30 for refreshments. After the balloon discussion, stay on for the regular Military History meeting, if you wish.

<p><b>Dina Maneval, Peregrin Falcon Whisperer</b> Monday, March 11, 2-3 p.m.</p>	
--	--

**RECORDING OF MARCH 11, 2024, RETIREE’S MONTHLY MEMBERSHIP MEETING, PEREGRINE FALCONS AT LANSING’S BOARD OF WATER AND LIGHT, WITH DINA MANEVAL OF THE LANSING BOARD OF WATER AND LIGHT.**

Dina Maneval has worked with the Lansing Board of Water and Light for 24 years as an accountant.

In 2004 she spear headed the Peregrine Falcon Project to help provide a protected nesting site for both the raptor and BWL staff. Alerted in 2004 that a peregrine falcon was spotted on the BWL Eckert Power Station roof, she acted.

Maneval remembered her 5th grade teacher lecturing about endangered and extinct wildlife in America: gray wolf, California condor, American bald eagle, and the peregrine falcon, but the peregrine stuck in her mind the most.

In 2007, she coincidentally reconnected with her teacher, Mara Lud, principal now, when she worked with the Moores Park Elementary School students and staff to start 'Pennies for Peregrine.' Maneval's program collected donations to purchase two FalconCams which were installed and connected at the nesting box allowing the public to watch the birds year-round.

Each year for 20 years now, BWL and the MDNR work together to band the baby falcons, so they are able to track their fledging patterns. Maneval is passionate, learning more and more every year about them – and thoroughly enjoys helping to protect and take great care of the peregrine falcon. Not only has the Peregrine nested at Eckert, but Maneval observed the falcons were aggressive at the BWL Erickson Power Station in 2022 as well. There are now two nesting sites at BWL property where there has been a total of 85 eggs laid, 55 hatched and 48 fledged.

Enjoy watching the area falcons live on these webcams.

### Virtual retiree parking permits debut July 1

Starting July 2024, retiree parking permits will be valid for one fiscal year (July 1-June 30), and you will receive no physical permit. Your car's license plate will be used to validate your parking on campus instead of a parking permit sticker on the windshield of your car.

Upon expiration on June 30th each year, permit holders will visit [parking.msu.edu](https://parking.msu.edu) or call Parking Services (517-355-8440) to renew their permit. You will need to know your MSUID login information and password for online renewal. Contact MSU IT Services at 517-432-6200 for assistance with login and passwords.

Those with a current permit will receive an email around the first of June, to serve as a reminder of the upcoming expiration date. The email will be sent to the preferred email you have listed in the parking system. This does not have to be an MSU email address.

Have your MSU ID in hand (if in possession) when contacting the parking office. If you do NOT have an MSU ID contact the ID office located within the International Center for assistance.

Benefits to going virtual:

- No physical sticker to remember to remove.
  - No charge for a loaner permit.
  - No waiting on permits in the mail or having to come to the office.
  - Can change the vehicle with parking privileges as often as needed.\*
  - Information can be updated online or over the phone.
  - Gate access will remain the same, using MSU ID for entry.
- \* Only one vehicle will be connected to the virtual permit at a time. Can "purchase" up to two permits for each renewal period.
