You can participate in the 2026 Adopt-A-Family Program co-sponsored by the MSURA and the Center for Survivors (formerly the MSU Safe Place). The Center provides advocacy, shelter, and safety planning to survivors of relationship violence and stalking. They provide these services to all identities, including persons in same-sex relationships, identifying as non-binary or trans, with disabilities, and from various racial and ethnic backgrounds. Even if you reside miles away, you can purchase a gift card or write a check to assist a family in need.

The Center for Survivors has provided us with a Wish List of gifts and essential items from a family they serve. Without this program, participants would not have Holiday gifts. You can purchase gifts and essential items from this Wish List:
